Norway and Vicinity.

Norway Hall was successfully dedicated last Monday evening.

Rines, the baker, is having a new cart. Trull has been doing the iron work. Business at the Norway bakery is rushing. If in want of good things sing out to the driver.

The following Oxford boys' names appear in this year's Bowdoin College catalogue: Seniors.—Chas. C. Hutchins, Canton; Chas. H. Stetson, E. Sumner; Walter C. Winter, Bethel; Juniors.—Frank R. Knapton, (Central So. Paris; Sampson R. Chisholm, Milton Plantation; Sophomores.—Frank L. Brown, Bethel; Frank W. Davis, Hiram; Lucius B. Folsom, Bethel; Freshmen.—Wallace W. Kilgore, Newbury; Medical Students.—Samuel C. Breckman, East Hebron; John P. DeCoster, Buckfield; Alpheus H. Harriman, Lovell; Elsie A. McCollier, Canton Point; Mark T. Newton, Andover; James S. Sturtevant, Hebron; Herbert P. Twitchell, Bethel.

We should like to hear from some of our correspondents. We mean those who have forgotten to send us the items. If you can't attend to the matter, please put in a substitute.

The March number of the *Live Stock Monthly* is not only gotten up in fine style but the articles in it are valuable. It contains just such information as every one interested in Live Stock wants. Address Live Stock Publishing Co., Portland, Me.

We received this week the promised flowers from Dr. O. N. Bradbury, which have grown in the fields this spring at Yarmouth, S. C. There are some half dozen varieties and were very fresh and quite fresh when we opened them up.

An evening of fun at the Universalist Circle next Wednesday. Demmett, the Hummelist who has audience at the High School entertainment, and whom so many wished to hear again, will be present. Music will be furnished by some young men of this village. Five cents above the usual rates. Tickets will be charged this time. 15 cents for adults and 10 cents for children. Entertainment begins at 8 o'clock.

This annual report of the officers of the town of Norway, Me., has been issued. It shows that the total value of personal and real estate is \$385,821.00, and that there are 633 polls. The whole amount of tax assessed was \$12,662.39 or twelve mills on a dollar. The whole amount of school money raised from the various sources, \$1,153.63. The amount in the several districts now unexpended is \$1,032.39. The highway tax was \$2,500.—\$200 of which was raised in money and \$1,300 of this money highway tax has been expended. The town expense account books up \$8,024.91, and of this amount \$2400.00 has been paid in taxes collected before Sept. 1st. \$542.79 was for abatements for '78, '79, '80 and '81, and \$717.24 for interest paid on outstanding orders. The expense of poor off 14th has been \$77.14 and \$219.05 has been paid for "poor of other towns." The expenses on the town farm have been \$718.38 and the amount of money realized from the farm \$422.74, a balance of \$295.64, and according to these figures it has taken \$128.91 to care for the poor of the town for the current year in excess of what was realized from the Town Farm. Add \$422.74 what was realized from the farm, which went to carry on that institution and it makes \$1,709.65 as the amount of money expended for the poor of the town. Should we increase this amount by the interest on the investment of stock, produce, farming tools, etc. as per inventory the care of town poor would come close up to \$2,000 per year. The Treasurer's report shows that the balance due from the collector at the commencement of the year was \$6,457.47 and at the close of this year there is \$5,737.53 due. The amount of outstanding orders is \$8,704.32. The total liability of the town is \$25,523.71; assets, \$31,149.53; leaves a balance against the town of \$5,625.82. The school report is an interesting document and should be carefully read by every citizen. It recommends the town to raise \$2,500 for the support of the schools the coming year and quotes the statement relative to children attending, at least 12 weeks of public school during the year. The number of scholars between the ages of nine and fifteen who have not attended school during the year is 20. The whole number of scholars attending school during the year is 513. The number of scholars in the town last April was 634. The tabular statement of the schools shows that the average price of board for the teachers is about \$1.50 per week. The lowest board was in district No. 10, .88 per week, the highest \$2.00 per week. The smallest wages was in districts 1 and 2, \$1.75 per week. In district No. 1 Miss Lucie Flint got \$1.75 per week and the average attendance was 14. The same teacher received \$4.00 per week and instructed the same number of scholars in district No. 13 in the winter term. Miss Flint's board in this district cost \$2.00 per week while in district No. 1 it took only \$1.20 to pay her board.

Mr. J. A. Bolster has moved into his house on Beal Street.

Town meeting runs is over and we take a long breath.

Wanted to get a correspondent at the Hub.

Capt. Sanborn has something to say about his cow in another column.

Noyes' Drug Store advertises the small lots of room paper for sale for the next few days.

Mr. F. H. Pike of Bolster's Mills, informs us the report that he was going to move to Norway, Me., was a mistake. He is still in the business.

Calico Ball next Monday evening. Under charge of Mr. F. C. Briggs and will be given soon at Norway Hall for the benefit of the Universalist Society.

Pride and confidence will be talked about at the Universalist Church next Sunday evening at 7 o'clock.

The Boston Daily Advertiser has moved into their new marble building, and celebrated the event by issuing a twenty-page paper, giving a history of the paper which goes back seventy years. We are glad to see the Advertiser prospering, and any paper that has stood the storms of seventy winters, is entitled to a marble monument.

The legal voters of the town of Norway are requested by the town committee to meet at Norway Hall, March 2d at 2 o'clock P. M., to nominate town officers for the ensuing year.

Mr. Simon Drake, of the ADVERTISER office has moved into Mrs. Philip Chase's house.

The Norway Dramatic club at Harrison, Saturday evening had a good house and presented "Still Waters run Deep" to the satisfaction of all.

The second number of the first volume of the *Grand Army Magazine* is on our table. It is an illustrated magazine, and contains a lot of interesting reading matter which consists of stories, sketches, reminiscences, etc. Terms \$3 a year in advance, single copies 25cts.

The dramatic entertainment at Norway Hall last Friday evening drew a full house.

The dramatic entertainment at Norway Hall last Friday evening drew a full house. The play was "Still Waters run Deep" and it was a very successful one. The audience was very large and the performance was very good. The actors were very well dressed and the scenery was very beautiful. The play was very interesting and the audience was very much pleased with it.

Thursday Feb. 22, about 2 o'clock in the afternoon the main shaft at the shoe factory broke, and all who depended on power to run their machines had to quit work and wait for repairs. They were not ready until the next morning all went to work as usual.

Gov. Robie has accepted the invitation of the Harry Post, G. A. R., Norway, to be present and deliver the address on Memorial Day, May 30th.

Other engagements are also expected. It is believed all the druggers of the County will be present. The procession will probably be the largest ever witnessed in Norway.

Daniel Harmon has received for hatching at the fish pond below the village, 130,000 salmon eggs, and he informs us he expects soon, 60,000 eggs more.

Seven hundred dollars have been raised towards paying the \$800 debt on the Universalist Church.

Tuesday, Feb. 20th, the children and grand children and great grand children met at the residence of Mrs. Nancy Faunce, on Pleasant Street of this village, to celebrate her 85th birthday.

There were present five children, there are living, also eight grand children, and four great grand children. After partaking of a bountiful repast the time was spent in social chat, a short speech from E. P. Hutchinson, singing and declamation by the grand children and great grand children, which all seemed to enjoy. It was hard telling which enjoyed it most the children or the visitors. The mother seems to retain her faculties remarkably. Her mind is as clear as one 20 years younger. She can read without the aid of glasses and converse as readily as a baby. At half past nine the company dispersed feeling well paid.

The March number of the *Atlantic Monthly* is at hand. It is what it claims to be, a magazine of literature, science, art and politics. This number contains a most interesting article by Henry Wadsworth Longfellow; in Carlyle's Country, by John Burroughs; Autobiography, by Agnes Paton; The Legend of Walworth Tower, by George Washington Peck; and a number of other articles.

Read Noyes' Drug store ads.

In another column we publish a personal letter from "Dick" Clement, which will be read with interest by his many friends here. We hope "Dick" will pardon us for taking the liberty to print his letter and we will promise to do so no more unless he should write another letter.

The blacksmith's convention at the Elm House Wednesday was well attended. Some 20 present and a scheduled list of prices was adopted to take effect after the 10th of this month. The action of the convention were made unanimous. The tariff is shortly to be printed and posted. Some of the former prices of work were not changed but owing to the advance in shoeing stock a slight rise was made for shoeing. Re-setting shoes and the re-setting of some kinds of wheel-tires remains the same. See schedule of prices in another column.

Allen wants to sell boots, shoes and rubbers. During the coming month, he will put the knife into the prices. Call and see him. See ad. He means business. If you want anything to sell or to buy, call on him. He will give you the best price.

The Oxford Co. Agricultural Society will hold a Farmer's Institute at Grange Hall, Norway, Wednesday, March 7th. Notice received too late for us to give program.

Exchanging umbrellas at a prayer meeting, is very improper and wicked, and we hope the individual that took a large one from the Methodist church last Sunday evening, leaving a smaller and poorer one in place of it, will rectify the mistake without any further comments.

Mrs. H. L. Horne started for Massachusetts yesterday, to spend a few weeks with her friends there.

The following was taken from *Zion's Advocate*. Mr. Beebe was well known in this vicinity. Mr. B. was the father of Mrs. H. E. Small and the late Mrs. L. A. Higgins. There died in Turner, Me., on the 10th of February, Mr. Owen Beebe, an elderly five years old. He was born in Minot, Me., March 2, 1793. He was among the few of the original Washingtonians (temperance men), having joined them in the early years of their organization, and remaining true to the pledge. His wife, looking out of the window would see him coming with a drunken man on each side of her. (Beebe's) home, and kept him there till he was sober and got him to sign the pledge. His wife, looking out of the window would see him coming with a drunken man on each side of her. (Beebe's) home, and kept him there till he was sober and got him to sign the pledge. Mr. Editor: I observed in your last issue a sketch of the butter prodigiousness of my cow. I neither authorized its publication nor knew it was to appear, but I will set the thing right. My cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk. The cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk. The cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk.

My cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk. The cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk. The cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk.

Mr. Editor: I observed in your last issue a sketch of the butter prodigiousness of my cow. I neither authorized its publication nor knew it was to appear, but I will set the thing right. My cow is a grade, Jersey, by accurate measure, the cream from which we churned 1 1/2 lbs. of butter, being 9 ozs. to the quart, or in other words, 1 lb. of butter from 25 qts. of milk.
